ANNOUNCEMENTS

Jul - U.S. Department of State Lead Paint Instructions to Embassies World-Wide

This week the U.S. Department of State (DOS) sent instructions via cable to US embassy posts in 70 countries for discussions with host country governments about the Global Alliance to Eliminate Lead Paint (Lead Paint Alliance). The cable provides background and talking points to encourage governments to establish lead paint laws. The cable is also being used as guidance by US Agencies working abroad. The US Department of Commerce is using the cable to inform its discussions with Standards Officials to establish recommendations on lead paint laws for the Central Asian region. DOS has been receiving expressions of interest from embassies and will coordinate with EPA on follow up. EPA expects this cable will help generate interest in lead paint laws in advance of a UN Environment Global Environment Facility Project on Lead Paint, which will provide further technical assistance to countries to develop lead paint laws.

Jul 10 - Public hearing on the proposal to retain the existing primary, or health-based, national ambient air quality standard for sulfur dioxide
